Speluitleg

Jullie worden influencers. Verzamel zoveel mogelijk volgers, zodat je iedereen kunt vertellen over jullie favoriete vlogger! De ploeg met de meeste volgers wint het spel.

Volgers verzamelen

Om volgers te verzamelen moeten jullie content maken op een post. Content upload je bij de centrale post.

Content maken

Content maak je door bij de posten in het speelgebied langs te gaan. Er zijn vijf verschillende soorten content (Vierkant, Cirkel, Ster, Driehoek en Kruis) die je kunt verzamelen, je herkent de soorten content aan de verschillende icoontjes.

Content uploaden

Als je drie posten hebt bezocht moet je content komen uploaden bij de Centrale Post om je content te posten. Hoe meer unieke content (combinaties van vormen en kleuren) je maakt, hoe meer volgers dat oplevert.

Trends

Om sneller volgers te krijgen kun je meeliften op trends. Elke keer als je content komt uploaden, krijg je een combinatie van soorten content die op dat moment populair is. Bezoek de posten in de juiste volgorde en lever die zo snel mogelijk in om extra volgers te krijgen!

Succes allemaal, en vergeet niet om een like achter te laten en om je te subscriben!
